Sample Answer:

Dear Dr. Thompson,

I am writing to inform you about Mr. John Carter, a 78-year-old patient under my care following his recent hip replacement surgery. Mr. Carter was admitted to our facility on March 15th, and the procedure was successfully performed without complications.

Since surgery, Mr. Carter has been monitored closely. Postoperative assessments indicate adequate pain control, and he is mobilizing with assistance. His vital signs remain stable, and there are no signs of infection or other complications. He has a history of hypertension and type 2 diabetes, both of which are well-managed.

During his stay, we encouraged early mobilization and provided wound care. The surgical site is healing well, with no signs of redness, swelling, or discharge. We have also begun patient education on activity restrictions and wound care at home.

Sample OET Writing Task for Nurses

Note: The following is a simplified example. Remember, the actual exam provides a specific case note and instructions.

Case Note Summary:

A 65-year-old female patient with type 2 diabetes presenting with a foot ulcer. The nurse has managed wound care and monitored blood glucose levels. The doctor requests a referral to a specialist for further assessment.

Sample Response:

Dear Dr. Johnson,

Re: Mrs. Jane Smith, aged 65

I am writing to refer Mrs. Jane Smith, who has been under my care for the management of her diabetic foot ulcer. Mrs. Smith has a 10-day history of a painful ulcer on the plantar surface of her right foot. She has a known history of poorly controlled type 2 diabetes mellitus and peripheral neuropathy.

On examination, the ulcer measures approximately 2 cm in diameter, with surrounding erythema and mild swelling. The wound bed appears yellowish, indicating possible infection. Her vital signs are stable; however, her recent blood glucose readings have been consistently elevated, averaging 15 mmol/L.

In the past week, I have been dressing the wound with saline-soaked gauze and advising strict foot care. Antibiotics have not been initiated yet, pending assessment. She reports some increased pain and difficulty walking.

Given the severity of the ulcer and risk of progression, I recommend a specialist assessment for possible debridement and further vascular evaluation. Please advise on the next steps for management.

Dear Members of the Admissions Committee,

I am honored to write this letter of recommendation for Ms. Sarah Johnson, who is applying to your esteemed Nurse Anesthetist Program. As the Director of Nursing at XYZ Hospital, I have had the pleasure of supervising Sarah during her two years as a registered nurse in our surgical services

department. Throughout this period, I have observed her exceptional clinical skills, unwavering professionalism, and profound commitment to patient care.

From the outset, Sarah demonstrated a remarkable aptitude for anesthesia-related tasks. She quickly mastered complex monitoring systems, assisted anesthesiologists with various procedures, and consistently prioritized patient safety. For instance, during a challenging neurovascular surgery, Sarah's attentive assessment and swift communication with the surgical team played a critical role in preventing intraoperative complications. Her ability to think critically under pressure exemplifies the qualities we seek in future nurse anesthetists.

Beyond her technical expertise, Sarah exhibits outstanding interpersonal skills. She communicates effectively with patients, calming anxieties through compassionate explanations, and collaborates seamlessly with multidisciplinary teams. Her ethical integrity is evident in her adherence to hospital protocols and her respect for patient dignity at all times. She is also dedicated to continuous learning, regularly attending workshops and pursuing certifications pertinent to anesthesia care.

In addition to her clinical acumen, Sarah's resilience and adaptability shine through, especially during high-stress situations. She remains composed, analytical, and solutions-oriented, traits that will undoubtedly serve her well in advanced practice roles. Her leadership potential is also apparent; she often mentors newer staff and volunteers for quality improvement initiatives.

Based on my experience working with her, I am confident that Sarah Johnson possesses the qualities, skills, and motivation necessary to succeed as a nurse anesthetist. I endorse her candidacy without reservation and believe she will be an asset to your program.
